

Password List With strength – Task 6

PASSWORD LIST	STRENGTH
Password	26
Pas\$word	58
Pas\$w0rd	72
Pas\$_w0rd	80
P@\$\$w0rd	92
Pa\$\$w0-=D	100
P@\$s_w0_r_d	100
!@#\$\$%^&*()_+	100
1234567890-=!@#\$\$%^&*()-=1	100

Best Practices

- **Use a long password:** At least 12–16 characters is recommended.
- **Mix character types:** Include uppercase and lowercase letters, numbers, and special characters.
- **Avoid personal information:** Don't use names, birthdays, or common phrases.
- **Use passphrases:** Create memorable but random phrases (e.g., "Purple\$Taco!Dances24").
- **Never reuse passwords:** Use unique passwords for each account.
- **Use a password manager:** Tools like Bitwarden, 1Password, or KeePass help create and store strong passwords.
